

# Zip and Split notes

zip directory, without compressing and encrypting with a password:

```
zip -0er backup-desktop.zip backup_desktop/
```

split backup-desktop.zip to 1megabyte files in backup\_split directory with backup-desktop- prefix:

```
split -b 1m backup-desktop.zip backup_split/backup-desktop-
```

md5 backup-desktop.zip file:

```
md5 -q backup-desktop.zip
```

md5 splitted files

```
cat backup_split/backup-desktop-* | md5 -q
```

merge files:

```
cat backup-desktop-* > backup-desktop.zip
```

unzip files:

```
unzip backup-desktop.zip
```
